## EDITORIAL FLINGS

In doing some one a good turn maintain a gracious attitude—A grouchy favor doesn't earn very much gratitude.

A Paris man says if the quality of love may be measured by a new mechanical device, the device should be fitted with shock absorbers to lessen wear and tear due to rapid changes of quality and volume.

For the conservation of belief in mankind among the small boys and girls of Paris the weather forecaster at Lexington when predicting snow should make it plain that he is not predicting good coasting snow.

January is the month in which a man pays the next to last installment on his ice bill, gives a note to cover his ice bill, and procures a lot of bad advice as to how to make out his income tax returns.

Old Paris gossip says: "Statistics show that one woman in ten married at twenty or under twenty is a widow or a divorcee within a year. Thus statistics prove that society never will be as dull as some pessimists would have us believe."

Attempting suicide by swallowing cyanide of potassium and iodine, a Louisville man discovered that the two neutralized each other, and made a rather stimulating drink. This, by the way, might be a tip to some of the "hootch" peddlers who are hurting their business by selling wood alcohol.

Henry Ford says he's through with his lambasting the Jews. He isn't the first man in history to learn that "Jew-baiting" is a profitless job. Many before Henry was born, have after trying the thing out, made up their minds that anti-Semitism is, after all, "the cry of a beaten man."

Eve never asked Adam what style of fig leaf she should wear when she concluded to follow the latest fashions. From that date to the present time no woman has ever consulted a man as to what was best becoming to her that would show her beautiful form to the best advantage. The man who thinks he can dictate to the women about how they dress has not sense enough to butt his brains out against a stone wall. This applies to any kind of man, too.

**Cities as Thunderstorm Spots.**  
The conclusion has been reached by a well-known engineer who has given the subject considerable attention that certain cities, if not indeed most inland cities of say 100,000 population or more, appear to be "thunderstorm spots." The observation has been made by E. R. Horton, of Voorheesville, N. Y., who also points out that "a shallow lake with sandy margins located in a forest may serve as a thunderstorm breeder" and cites as proof observations made by him over Oneida lake, New York.

**Agate Gets Name from a River.**  
Agate, the precious stone, derives its name, according to Pliny, from the River Agathes in Sicily, near which it was first found.

**Viewed From the Side Lines.**  
Probably the worst thing about a wedding march is that the groom makes the drill master.—Galveston News.

## SHERIFF'S SALE FOR TAXES

**PUBLIC SALE OF**  
**Bourbon County Farm**  
OF 122 ACRES  
**SATURDAY, FEB. 4th 10 A. M.**  
We are authorized by the owner, Mrs. Nannie Clay Howard, to sell her farm of 122 acres, more or less, with improvements thereon, located on the Escondida pike, about 5 1-2 miles from Paris, and about 1-2 mile from Escondida Station, on the L. & N. R. R.  
The improvements consist of a good tenant house of four rooms, 8 acre tobacco barn, practically new, and other out-buildings.  
Abundance of water for man and beast, fencing extra good.  
About 80 acres of the farm is in old bluegrass sod, and about 45 acres in a high state of cultivation.  
The farm lays well and there is no better producing land in the county, and any one in the market for a paying proposition, such as this undoubtedly is, should not overlook this opportunity to buy.  
The property will be sold on the premises.  
For any information concerning same, apply to
